 This red symbol indicates a change in color for this specific drink. Tap water or rain will indicate a color change to blue, regardless of the date rape drug content. This is called false positive, as it incorrectly indicates the presents of GHB. Other drinks do not show color change to blue with a positive GHB test.

DRINKS	GHB					Ketamin			
	Negative	Positive	blue	CAUTION Different colour change	Reaction time	Negative	Positive		Reaction time

Long Island Ice Tea ●			-	-	3 min.	unverändert		+	2 min. 45 sec.

This red symbol indicates a change in color for this specific drink.

- This marked drinks show a color change to yellow -green w w with a positive GHB test. They are not easy to separate from a negative test.

Bailey's Irish Cream does show a blue color change with a negative and positive test of GHB. This is another false positive case and therefore cannot indicate if the drink has been spiked.
